## Summary

A Goal-oriented Full-stack developer having more than 2 years & 10 months of experience with a great passion in both back-end and front-end development, I can create API and decent UI.

Armed with a deep sense of responsibility and possessing very high levels of enthusiasm to give my 110% for any endeavor.

I would like to be a part of an organization where I could use and enhance my knowledge and talent for the development of both the organization and myself.

## Experience

### Software development Engineer

**Asort** Dec 2019 - Present

Working on fashion e-commerce and lifestyle projects built in React/Redux, NodeJs, Javascript, PostgreSQL, RestAPI etc.

### Full-stack Developer

**Jai Infoway** Oct 2018 - Dec 2019

Built the extensive project from scratch to the end. Has everything that a complex web-app needs. Built-in Angular, Nodejs, Javascript, PostgreSQL, Git, GCP etc.

### Web Developer

**Sankrit Infotech** Jul 2017 - Sep 2018

Web Solutions, ERP Consultancy, Human Resource Recruitment, SEO services and Corporate Training.

As the Web developer I worked on both Front-end (HTML5, CSS3, Javascript) + Back-end (PHP, MySql).
